

Ladies and Gentlemen of the FCC,

With great sorrow I learned that Sinclair Broadcasting will be airing a political ad (so-called documentary) on all of their stations, with the intention of influencing the election. Oh come on, political ads are on all the time, til we're sick of the whole mess. However, this documentary will not last 30 seconds, it is one-sided, can mislead voters, and gee whiz, if the broadcasters chooses to use free airwaves, let their programming be truly informative. We don't want to follow the lead of Nazi Germany, China, Russia & other countries who force citizens to absorb "pro-government" broadcasts.

Thanks for listening.
